

PULSAR PLUS

TITLE	Small is powerful
SUB-TITLE	The smart and powerful home EV charger.
PRODUCT INSPIRATION	Wallbox Pulsar Plus was created to give your electric vehicle a powerful smart charger in an incredibly small size. It is perfect for daily use at home. Its compact dimensions and minimalist design fit any garage and is enhanced by multiple functions found on the myWallbox app.
PRODUCT LONG DESCRIPTION	<p>Wallbox Pulsar Plus is our smallest powerful smart electric vehicle charger. It's designed to fit wherever you choose and change colors depending on its charge status, so you know instantly when your car is charging or ready to go. It's available with a variety of charging cables and power supplies, allowing it to power any EV up to 22 kW.</p> <p>Home charging is simplified through the myWallbox app and allows you to control your charger from any smart device via Wi-Fi or Bluetooth. You can manage charging, create schedules, receive notifications, and more. With Pulsar Plus, you control your EV charge and wake to a full battery every day.</p>
